### EXPERIENCE

#### Full Stack Engineer

MICROVERSE

Remote, USA

September 2022 – Present

- Review 10+ ruby on rails projects a day, achieving 100% review quality, by accelerating junior developers' skill set and consistency using the criteria provided.
- Deliver objective feedback to 50+ junior developers on best practices, Git skills, clean code, etc. to foster a positive culture around reviews, hence improving collaboration and relationships.
- Apply GitHub pull requests and live pages, Linter rules, and other tools to review code quality.

#### Full Stack Web Development

Freelancer

Remote

April 2018 – Present

[Yellow Rooms](#). — Online reservation system that enables booking available hotel rooms.

- Built with: React, Redux, PostgreSQL, and Ruby on Rails. [Source Code](#).

[Bloggers](#). — Web app that empowers anyone to read blogs and registered users to post/read blogs.

- Built with: JavaScript, jQuery, PHP, and MySQL. [Source Code](#).

[Ispend](#). — A mobile web app that allows registered users to manage their spending.

- Built with: Ruby on Rails and PostgreSQL. [Source Code](#).

#### Chief Technical Assistant (Part-time)

Bahir Dar University

Bahir Dar, Ethiopia

March 2013 – Present

- Publish two programming course laboratory manuals (web page design and basics of HTML) for Junior students to learn and grow their skills successfully throughout the program.
- Amplify the grasp of Internet usage and basic online security of 40+ staff members by delivering tech seminars on these topics.

### EDUCATION

#### Remote Full Stack Web Development, MICROVERSE

February 2022 – August 2022

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Updated my skills in pair programming, collaboration with programmers, GitHub, and git-flow.
- Achieved monthly top contributor award.

#### Bachelor Degree, Computer science, Bahir Dar University

April 2013 – November 2018

- Developed one of the **top 5** software projects of the year at Bahir Dar University.
- Scored A+ (4/4) in software project management, DS & A, OOP, distributed systems, and more.
- Led the development of a full-stack web app and acquired 2 certificates of recognition.
